Subject: school.

Dear Cristián,

Hello, how are you?? I am fine, actually, celebrating my birthday with my family...now I am 16 years old. How is school?, I have to study a lot, but we are learning many interesting topics. I love social science.

Last week, we discussed human rights and we talked about mapuches and their rights. This is a very interesting topic. Do you also study native people in the United States?. Can you send me some more information about this topic to take to my class? I can send you some more information about Chile, too.

See you,
bye
Diego
